

## TOP TIPS FOR MAKING CENTS OF THE LOCKDOWN IF YOU ARE RETRENCHED!

01

### Take control of your situation!

Remember to let your creditors, your bank and your service providers know immediately of the change in your financial situation.

02

### Claim from the UIF

If UIF payments have been deducted from your salary, you may be able to claim a part of your previous salary income from the UIF. You will need your South African ID number, email address and cell phone number.

03

### Get back in the game!

Create an action plan for looking for a new job and creating new sources of income. Update your CV and cover letters, post your availability on job boards such as Career Junction etc.

A Financial Coach is ready and able to help you navigate this difficult time.
